

Mining

Manuchar supplies mining reagents to global and local mining companies worldwide.

Metals and minerals are crucial inputs for many industries that our modern society needs. They also play a key role in the economies of many developing countries and in tomorrow's ecological transition to a greener world.

Thanks to our global distribution network and sales channels all across Latin America, Africa and CIS, we provide uniquely tailored logistic solutions and expertise to regional and global blue-chip companies across their

production lifecycle. We understand that each mining customer is different and has unique requirements.

We offer to each of them a wide range of chemicals varying from commodities like Soda Ash, Caustic Soda, Sulphates and Sulphites to processing reagents used in the treatment of oxides and sulphides by concentration, flotation, leaching, refining...

Manuchar as a global player

In 2023 we handled 4 million metric tons of goods, generating 2.4 billion USD in sales. Our local operations are in over 40 countries and 160 locations. Manuchar employs 2,800 professionals worldwide.

At Manuchar, "we keep your production running. Anytime. Anywhere."

Mining portfolio
